

Key information for posting on blogs and websites

Applications are now being accepted for [Perimeter Scholars International \(PSI\)](#), the unique 10-month master's program at Canada's Perimeter Institute for Theoretical Physics in partnership with the University of Waterloo.

Features of the program include:

- No application fee.
- Removal of financial barriers: most students who receive and accept offers of admission to PSI will receive a full scholarship. Perimeter Institute also helps with travel arrangements and any immigration arrangements necessary.
- Exposure to the full breadth of theoretical physics topics.
- Students are taught by leading minds in theoretical physics while earning a Master's degree from the University of Waterloo.
- Collaboration is valued over competition; deep understanding and creativity are valued over rote learning and examination.
- PSI recruits worldwide: 85% of students come from outside of Canada
- PSI seeks extraordinary talent who may have non-traditional academic backgrounds, but have demonstrated exceptional scientific aptitude.
