

Key information for posting on blogs and websites

Applications are now being accepted for [Perimeter Institute's Undergraduate Theoretical Physics Summer Program](#). This fully-funded two-week summer school offers students the opportunity to participate in ground-breaking research while learning research tools and collaboration skills in the multi-disciplinary environment of the world's largest independent theoretical physics research centre.

Features of the program include:

- No program fee
- No application fee
- All meals, accommodation and transportation provided
- Opportunity to stay at Perimeter for a paid four-month research internship (start and end dates negotiable).
