

Key information for posting on blogs and websites

Applications are now being accepted for Perimeter Institute's Summer Undergraduate programs.

- 2-week summer school (June 15-26, 2026) offers students the opportunity to learn research tools and collaboration skills while immersed in the multi-disciplinary environment of the world's largest independent theoretical physics research centre.
- Paid Research internship (May 4-August 14, 2026). Interns will be fully immersed in Perimeter's renowned research environment, work on projects alongside Perimeter scientists, and potentially even publish their work

Features of programs include:

- No application fee and no program fee for both programs
- Summer school students receive free accommodation, weekday meals, and some travel cost support
- Research interns are paid. Weekday meals and some travel costs support are provided. Low-cost housing is available for rent.
